To the proprietors of horses.

As the winter season has now set in and the camp is improving I beg to advise horse-owners that I am ready to take charge of horses at so much per month for pasturage, at the same time making myself responsible for the value of any horses lost (not including such as may die a natural death), on the following conditions:

1st. Horses not exceeding $600 in value will pay 80$ per month.

2nd. Horses worth from 600 to 1,000$ will pay 100$ and horses worth over 1000$ shall be charged 10 per cent., on their value for monthly pasturage.

3rd. Horse-owners will have to send for their horses to the estancia, and when delivering them will get a receipt from the Mayordomo; but when there are more than 4 horses the undersigned will send to take them or return them to town at 60$ a head.

4th. Horse-owners may leave their animals as long as they like, but cannot take them away until first paying whatever is due for them.

5th. After 4 months of pasturage the owner will be required to pay the cost of same, and if this be not satisfied within a further term of 2 months the horses will be confiscated as property of the estancia and branded with the estancia-mark.

6th. Every horse-owner will receive a ticket bearing my signature, expressing the value of the horses left for pasture, the date and conditions.

7th. Every horse-owner shall deliver to me the 'boletos' of the horses or a copy of same, to prevent the horses being seized as stray animals.

8th. In case of a horse dying, a piece of his hide with the mark will be returned to the owner.

Co.'s Office, 118 Calle Piedad, altos.

The Company insures on equitable terms, and at a fixed premium, every description of property. The Company is solely and exclusively responsible for losses OCCASIONED BY FIRE which may be suffered by insured parties.

The Insurance may be effected for periods ranging from one month to ten years. The total premium is payable in advance, in cases where the Insurance is effected for a term of one year or less; and annually where the term exceeds one year. In terms of from 5 to 10 years, payment in advance of 5 years premium, entitles the Insured to the reimbursement of one year's premium: or in other words the Company will only charge the premium corresponding to four years.

Payment in advance of ten year's premium entitles the Insured to the reimbursement of two year's premium; with a further abatement of 10 p: cent: on the premium corresponding to the term of eight years: that is he will only be charged with the amount of eight year's premiums—less 10 p. cent.

The Company furnishes guarantees of the highest character, from the fact of there being no other Fire Insurance Company, at a fixed premium, having its head residence in the Argentine Republic, and also from the circumstance of its large capital.

SATURDAY, JUNE 16, 1866.

NEW LAND-LAW.

GREAT BOON TO SHEEP-FARMERS.

The new Provincial Government has inaugurated its administration by a new Bill on Public Lands which may be set down as the wisest measure ever proposed to the Legislature and we trust the Chambers will see the expediency of immediately passing it into Law. On another occasion we shall call attention to its salient points, so beneficial to the poorer class of farmers. At present, owing to its great length, we regret being obliged to omit the preamble by the learned Minister Avellaneda (author of a Treatise on Public Lands); there is also an ancillary project relative to 'Sobrantes' which we hold over till to-morrow.

PROJECT OF LAW.

Sale to tenants and sub-tenants.

Art. 1. It is prohibited to renew contracts for rental of Public Lands within the frontier, as marked out by decree of July 19th 1858, unless touching such lands as are hereinafter specially excepted.

The Government shall proceed to sell said Public Lands on the terms and in the manner expressed as follows:—

Art. 2. The actual tenants may purchase the land they hold, by soliciting same within 90 days after the expiration of their contract. The tenants whose contracts may expire within the prolonged term granted by the law of Nov. 14th, 1864, must present themselves to purchase within 90 days after the promulgation of this law.

Art. 3. Sub-tenants shall be preferred to tenants, as purchasers for the lands they occupy, provided they apply within the term above specified.

Art. 4. The sub-tenant may establish his quality as such by the ordinary evidence admissible in legal questions.

Art. 5. In case of question between tenant and sub-tenant as to the existence of a contract with the latter, or the area of camp held by him, it shall be settled in a verbal audience before one of the Ministers, the Fiscal or Assessor being present, and the interested parties.

Art. 6. All questions of this kind must be settled within 30 days, and there shall be no appeal from the decision of Government.

Art. 7. The necessary steps for tenants or sub-tenants to purchase lands shall be in accordance with the decrees of Nov. 15th and 21st, 1864, so far as not altered by the present law.

Art. 8. The Chief of the Lands Department shall publish on the 1st of January, each year, and at present 8 days after the promulgation of this law, an *Aviso* containing specifications of contracts expiring within the year, giving the name of tenant, area of camp, and its situation. The *Aviso* shall expressly notify sub-tenants of the preference given them by this law.

Price and mode of payment.

Art. 9. For effects of the present law, all Public Lands within the frontier are hereby divided into 4 classes—

1st. The partido of Tapalqué, that part of Saladillo S.W. of the new town, that part of 25 de Mayo N.E. of Fort Baudrix, as far as the Arroyos Saladillo and Las Flores.

2nd. The rest of Saladillo and 25 de Mayo, the partidos of Bragado, Lincoln, 9 de Julio, Junin, Rojas, Pergamino, Azul, Necochea, Castelli, Dolores, Tordillo, Ajó, Monsalvo, Arenales, Ayacucho, Rauch, Pila, Tandil, Loberia, Balcarce, Marchiquita, Vecino, Las Flores, and Fuyú.

3rd. The partidos of Chacabuco, Salto, Lobos, and Chascomus.

4th. All other partidos not above named, excepting the lands specially affected by laws of 29th July, 1857, 16th Oct. 1857, and Oct. 22 and 28, 1858.*

Art. 10. Public lands of 1st section shall be sold at $100,000 per square league; 2nd section at $150,000; 3rd section at $250,000; and 4th section at $400,000.

Art. 11. Tenants or sub-tenants, presenting themselves in conformity with Arts. 2 and 3 shall obtain the property of the lands they occupy on satisfying the prices laid down in preceding Art.

Art. 12. Tenants and sub-tenants, whose contracts shall expire before Dec. 31, 1869, shall pay cash one-sixth the price of the land, and the rest in equal instalments at one, two, three, four, and five years. Those whose contracts shall expire after Dec. 31, 1869, shall pay the same amount in cash, but only have three years to pay the balance, which shall in like manner be in three equal instalments.

Sales by Auction.

Art. 13. Lands not solicited for purchase within the periods defined in Arts. 2 and 3 shall be put up for public auction. The auction shall be presided over by the Chief of the Lands department, aided by one of the Contador's or the Escribano of Government.

Art. 14. No land can be put up for auction without three months public notice beforehand. The Executive shall indicate the date of auction, and how long it is to last, according to the quantity of land to be sold.

Art. 15. The land shall be auctioned in fractions not exceeding one square league: no bid can be accepted under the prices stipulated in Art. 10.

Art. 16. The purchaser at public auction shall pay one-sixth cash down, and the rest in five equal annual instalments.

Art. 17. Fractions remaining unsold by auction shall be offered for private purchase at the Lands Office on the same terms and conditions.

Art. 18. Fractions remaining unsold at two years after auction shall again be put up for auction at a reduction of 25 per cent. on the original prices: those which still remain shall be offered at same price for private purchase, during 4 years. If any then remain they shall be put up by auction at a reduction of 50 per cent., and 4 years afterwards at a reduction of 75 per cent.

Art 19. The Executive is specially charged with regulating this part of the law.

Conditions common to all Sales.

Art. 20. When the purchaser has paid one-sixth of the price, the Government shall give him the bill-of-sale, the land remaining mortgaged for the balance. The purchaser shall sign 'pagare's' for each of the instalments on time. The purchaser may obtain title to the land, without mortgage, on giving instead of 'pagare's' bills with two respectable signatures to the satisfaction of Government.

Art. 21. Parties buying land and wishing to pay cash may do so, being allowed in this case a discount of 12 per cent. per annum on the price of the land.

Art. 22. It is also permitted to pay in specie, either the whole or any of the instalments, in which case the Land Office shall calculate the amount at the rate fixed by law of Nov. 22nd, 1864, (i.e., 25 paper dollars for one hard dollar).

Art. 23. As soon as the purchaser receives his papers the land becomes private property, subject to payment of Contribucion Directa.

Art. 24. In case any party purchasing land by private or public sale should afterwards fail in payment of one of the instalments, for which the land remains mortgaged, the Lands Office shall give him two months' grace, and if he fail to make good the amount in this time, he shall then forfeit one-half of the sixth-part, originally paid cash down, and the whole sale shall be null. The Lands Office shall then put such land, again, up for auction in the usual form. In case the land should not have been mortgaged, but the purchaser have given bills (as in art. 20), these shall be duly recovered, with an extra charge of 1 per cent. per month from the time they fell due until payment.

Art. 25. When any of the lands at present rented out, come to be sold to other than the tenant, the latter failing to apply for same within the term specified, the tenant shall be entitled to demand of the buyer compensation for all improvements, at a fair estimate.

General Regulations.

Art. 26. In each partido where there is at present no town, four square leagues shall be reserved, the Executive selecting same when and where it may judge expedient.

Art. 27. The product of lands sold shall be delivered to the Bank board of Directors, according as recovered; as also the Pagaré's and Bills (in Art. 19) for the Bank to recover same.

Art. 28. The law of Nov. 14, 1864, is hereby repealed and made void.

TWO DAYS LATER FROM THE STATES

RECONSTRUCTION BILL

GREAT BANK ROBBERY

CHOLERA ON THE DECLINE

TERRIFIC FIRE AT DETROIT.

New York, April 30.

Through the kindness of Mr. E. A. Hopkins, who arrived per Humboldt from Rio, we are in possession of the 'New-York Herald' of April 30th, being two days later than the mails received per English packet.

It is understood that the Joint Committee on Reconstruction will report in both Houses of Congress to-day the plan which they have at length agreed upon for the rehabilitation of the lately rebellious States. This plan, provides:—

Section 1.—That no State shall make or enforce any law abridging the equal privileges or immunities of citizens of the United States, or denying to any person equal protection under the laws.

Sec. 2.—That the whole population shall be counted for representation in Congress, excluding Indians not taxed; but that whenever any State shall deny to any portion of its people the right of suffrage, except for participation in the rebellion, or other crime, the popular basis of representation shall be proportionately reduced.

Sec. 3.—That until July 4, 1870, all persons voluntarily participating in the late insurrection, giving it aid and comfort, shall be excluded from the right to vote for members of Congress, and for electors for President and Vice-President of the United States.

Sec. 4.—Prohibits the payment or recognition by the United States, or any State, of any debts incurred in the rebellion, and repudiates all claims for compensation for loss of slave labor.

Sec. 5.—Gives to Congress the power to enforce these provisions.

This is the plan of the Reconstruction Committee, after a incubation of five months.

It was reported in Washington yesterday that the Spanish Minister, under instructions from his government, has requested the mediation of the United States in the Chilian difficulties, and proposed to refer the Spanish claims to our government for arbitration.

In addition to the late diplomatic correspondence relating to Mexico Mr. Bigelow has written to Secretary Seward that he had a personal interview with M. Drouyn de Lhuys, in which the latter stated that he would be very glad if it were practicable to open communication with Juarez on the proposed evacuation, and make arrangements with him and his party relative to the stay of Maximilian among them.

A captain in the late Fenian expedition to Eastport says that the only hope now is in the Roberts-Sweeny organization. The steamer with the retiring Fenians on board arrived at Portland yesterday morning. A mutiny occurred among the most discontented of them and a threatening demonstration was made against their officers; but, a few ringleaders being put ashore, quiet prevailed.

Our European files by the Nova Scotian reached this city from Portland Me., yesterday morning, and the steamship Arago, from Havre by way of Falmouth, Eng., on the 12th of April arrived in the evening. From both sources we are enabled to publish some interesting details of our telegraphic news-reports to the day of sailing of both vessels.

A Washington despatch states that permission has been granted Mrs. Jeff Davis to see her husband.

The depots of the Detroit and Milmaukee and of the Michigan Southern Railroads, and the ferry-boat Windsor, were destroyed by fire in Detroit on Thursday night, involving a loss of over two hundred and twenty thousand dollars. A lamentable loss of life occurred on the boat, twenty-eight persons being missing, who are supposed to have been burned or drowned. The fire was occasioned by the ignition of a barrel of kerosene oil.

Six burglars entered the residence of the cashier of the Harrison National Bank of Cadiz, Ohio, bucked and gagged that gentleman, and compelled his wife to deliver up the keys of the bank and safe, and robbed the safe of three hundred thousand dollars in United States bonds and about fifty thousand dollars in deposits.

The Secretary of the Navy has issued orders to Rear Admiral C. H. Bell, commandant of the Brooklyn Navy Yard, to send the old sloops-of-war Saratoga and Portsmouth to the lower bay, and give them in charge of the Health Board to receive cholera patients. These vessels, until recently, have been used as ordnance vessels.

A communication published this morning from Thos. J. Kelly, Adjutant General of the Irish republican army, states positively that it was the intention of Head Centre Stephens to leave Havre for this port on the 28th inst. in the steamer Napoleon III., which will probably arrive about the 9th proximo.

Files of Jamaica papers, dated to the 18th April. Governor Eyre sustained some injuries by a fall from his horse at Spanish Town. Mrs. G. W. Gordon, widow of the convicted leader of the late revolt, was about to leave Jamaica for England. The chiefs of the Anti-Slavery Society of England were to receive her at Southampton.

Among the passengers to sail to-day by the steamer North America 'en route' to Pernambuco, is Mr. Herrmann, the famous prestidijitateur, who goes to perform a seven months' season in Brazil and River Plate.

Mr. Ketcham, (rep.) of N. Y., presented a petition of citizens of Red Hook, Dutchess county, N. Y., asking for increased protection for American wool. It was referred to the Committee of Ways and Means.

Portland, Me., April 27, 1866.

About two hundred Fenians arrived on the boat this morning from East port. Some of them landed here. General Roberts is reported on board.

Considerable excitement has been caused by the report that the captain got a number of the party ashore here and attempted to shove off and leave them, when those on board threatened to seize the steamer unless the vessel put back and took them on board. The steamer beat about the bay for some time, but finally the captain took those on shore aboard and proceeded on the journey.

Very absurd rumors are afloat about an attempt to capture the steamer, but the above are the facts as near as I can learn.

EDITOR'S TABLE.

To-morrow Capt. Grant Watson, of the British Legation, leaves for Montevideo, en route for the Welsh Colony at the Chupat; letters or papers for the Colony will be received at this office up to 4 o'clock p.m. this day, at which hour we close the Chupat mail. Vice Admiral Elliott and Mr. Ford, our British Chargé d'Affaires, have, in consequence of letters received from the colonists by the Governor of the Falkland Islands, determined to send Capt. Watson down in the 'Triton' to personally inspect the Colony, examine the colonists as to the charges preferred, and report to Mr. Ford thereon. An Argentine Commissioner will accompany Capt. Watson. We cannot too highly praise the activity of Mr. Ford in all matters which affect British interests; he sent Capt. Watson to Rosario to see that the murderer of Marshall be punished, and he himself has just returned from a trip to the Uruguay, where he has been busy inspecting the Morgan and Liebig beef-curing establishment, in order to make his report to the Foreign office. He has now taken the Welsh Colony in hand, and we feel certain that at last some satisfactory information respecting this colony will be obtained.

Yesterday the Narcissus left for Rio with Vice Admiral the Hon. Mr. Elliot and family. We regret sincerely the departure of Admiral Elliot, who during his stay amongst us won golden opinions amongst all his countrymen, and in bidding him farewell we express the wish of the whole British public for his happiness and future prosperity.

The new Admiral has not yet arrived, but we understand that Admiral Ramsay has been named to the command.

Dr. Avellaneda's new land law took all town by surprize yesterday: we publish it in full to-day. The bill merits our most unlimited support, and reflects the greatest credit on our new Provincial Government. A careful study of the law in all its bearings will at once convince every one that it is drawn up with the object of protecting the poor man. If the Government succeeds in passing it, we have no hesitation in saying that it will prove an inestimable boon for the camp. Our 'penchant' for hunting out pedigrees is admitted: this new land-law is such a first-rate move that we are free to believe now what we long entertained grave suspicions about, namely, that the new Governor is a Scotchman by descent, his ancestor's name having been Alison, one of the first families in Scotland. If our conjectures are correct, the new Governor is a distant relative of Sir Archibald Alison, the renowned historian.

To-night our German friends hold a feast of reason at the famed Teutonia Club. Our Teutonic friends have very kindly invited us, but we greatly fear that owing to the profundity of the mud on the Barraca road the thing is simply impossible, nevertheless, we highly appreciate the very great honor paid us by our German friends. It is an anniversary night, and flags will be presented. We hope, if unable to attend, some kind friend will send us a full report of the proceedings.

Alberdi's last pamphlet, published in Paris, respecting the triple alliance, has caused great noise here. The pamphlet contains a map of the territory which the allies propose cutting off from Paraguay.

Dr. Octaviano, who left per Porteña for Montevideo, proposes inspecting the Brazilian hospitals in that city, and then at once proceeding to Corrientes. He has £100,000 in gold on board.

The new name put on the Porteña is Eponina, which we understand is the name of Dr. Octaviano's wife.

Some despatches for D. A. Lanuz and also for the 'Standard' office per Esmeralda have been lost. We implore of our friends, if anyone has picked up Sinbad's letter to send it to us at once, as yesterday owing to the non-arrival of steamers we were rather hard up for news.

Two more American officers have arrived in the Brazils from the States, to inspect the country about the Amazons and arrange for a wholesale emigration.

The Minister of War, accompanied by some officers, paid another visit to the new Prussian steel cannons which have recently arrived. We anticipate they will be at once sent to headquarters.

Three Sisters of Charity are now in attendance on the wounded at the Retiro hospital; the services which the Sisters are rendering the allied wounded at all their hospitals can only be appreciated by those who attend these abodes of suffering humanity.

Great complaints are made about Doctors having returned from Corrientes so soon; it seems the only Dr. that has remained in Corrientes is Dr. Peralta. At the way things are going on, it will soon be necessary to press the Doctors, for if we are to believe the letters we get from Corrientes that city is in a most lamentable state.

Our latest advices from Tandil are to the effect that the Comisario has arrived with a boxof paper money and is paying the troops, which has caused a gleam of sunshine in those deserted camps.

Respecting the French packet, we hear that owing to the great crowd which generally gets on board on the day of her departure, the new Captain has been induced to establish the new rule "none but passengers on board"; as to the cold water cocktails, we hear that this is caused in consequence of several friends forgetting to pay in the hurry of the steamer leaving.

The instructions of Lopez to his soldiers and his countrymen, published at his camp printing-office in Humaita, dated 29th September, 1865, were yesterday brought to our office: it is carefully and ably drawn up, and calculated to fire the whole Paraguayan population against the allies. The document is too long for publication in our columns, although the Montevidean papers have published it. We only mention the matter to show the care which Lopez takes to omit nothing on his part to ensure success. He gives his soldiers the whole history of the war, according to his version.

The great estancia auction, by the renowned Mr. Billinghurst, terminated rather favorably. As we promised our readers full particulars, we now give the result as favored us by the auctioneer.

Art. 5. In case of question between tenant and sub-tenant as to the existence of a contract with the latter, or the area of camp held by him, it shall be settled in a verbal audience before one of the Ministers, the Fiscal or Assessor being present, and the interested parties.

Art. 6. All questions of this kind must be settled within 30 days, and there shall be no appeal from the decision of Government.

Art. 7. The necessary steps for tenants or sub-tenants to purchase lands shall be in accordance with the decrees of Nov. 15th and 21st, 1864, so far as not altered by the present law.

Art. 8. The Chief of the Lands Department shall publish on the 1st of January, each year, and at present 8 days after the promulgation of this law, an *Aviso* containing specifications of contracts expiring within the year, giving the name of tenant, area of camp, and its situation. The *Aviso* shall expressly notify sub-tenants of the preference given them by this law.

Price and mode of payment.

Art. 9. For effects of the present law, all Public Lands within the frontier are hereby divided into 4 classes—

1st. The partido of Tapalqué, that part of Saladillo S.W. of the new town, that part of 25 de Mayo N.E. of Fort Baudrix, as far as the Arroyos Saladillo and Las Flores.

2nd. The rest of Saladillo and 25 de Mayo, the partidos of Bragado, Lincoln, 9 de Julio, Junin, Rojas, Pergamino, Azul, Necochea, Castelli, Dolores, Tordillo, Ajó, Monsalvo, Arenales, Ayacucho, Rauch, Pila, Tandil, Loberia, Balcarce, Marchiquita, Vecino, Las Flores, and Fuyú.

3rd. The partidos of Chacabuco, Salto, Lobos, and Chascomus.

4th. All other partidos not above named, excepting the lands specially affected by laws of 29th July, 1857, 16th Oct. 1857, and Oct. 22 and 28, 1858.*

Art. 10. Public lands of 1st section shall be sold at $100,000 per square league; 2nd section at $150,000; 3rd section at $250,000; and 4th section at $400,000.

Art. 11. Tenants or sub-tenants, presenting themselves in conformity with Arts. 2 and 3 shall obtain the property of the lands they occupy on satisfying the prices laid down in preceding Art.

Art. 12. Tenants and sub-tenants, whose contracts shall expire before Dec. 31, 1869, shall pay cash one-sixth the price of the land, and the rest in equal instalments at one, two, three, four, and five years. Those whose contracts shall expire after Dec. 31, 1869 [illegible] the same amount in cash, but only have three years to pay the balance, which shall in like manner be in three equal instalments.

Sales by Auction.

Art. 13. Lands not solicited for purchase within the periods defined in Arts. 2 and 3 shall be put up for public auction. The auction shall be presided over by the Chief of the Lands department, aided by one of the Contador's or the Escribano of Government.

Art. 14. No land can be put up for auction without three months public notice beforehand. The Executive shall indicate the date of auction, and how long it is to last, according to the quantity of land to be sold.

Art. 15. The land shall be auctioned in fractions not exceeding one square league: no bid can be accepted under the prices stipulated in Art. 10.

Art. 16. The purchaser at public auction shall pay one-sixth cash down, and the rest in five equal annual instalments.

Art. 17. Fractions remaining unsold by auction shall be offered for private purchase at the Lands Office on the same terms and conditions.

Art. 18. Fractions remaining unsold at two years after auction shall again be put up for auction at a reduction of 25 per cent. on the original prices: those which still remain shall be offered at same price for private purchase, during 4 years. If any then remain they shall be put up by auction at a reduction of 50 per cent., and 4 years afterwards at a reduction of 75 per cent.

Art 19. The Executive is specially charged with regulating this part of the law.

Conditions common to all Sales.

Art. 20. When the purchaser has paid one-sixth of the price, the Government shall give him the bill-of-sale, the land remaining mortgaged for the balance. The purchaser shall sign 'pagare's' for each of the instalments on time. The purchaser may obtain title to the land, without mortgage, on giving instead of 'pagare's' bills with two respectable signatures to the satisfaction of Government.

Art. 21. Parties buying land and wishing to pay cash may do so, being allowed in this case a discount of 12 per cent. per annum on the price of the land.

Art. 22. It is also permitted to pay in specie, either the whole or any of the instalments, in which case the Land Office shall calculate the amount at the rate fixed by law of Nov. 22nd, 1864, (i.e., 25 paper dollars for one hard dollar).

Art. 23. As soon as the purchaser receives his papers the land becomes private property, subject to payment of Contribucion Directa.

Art. 24. In case any party purchasing land by private or public sale should afterwards fail in payment of one of the instalments, for which the land remains mortgaged, the Lands Office shall give him two months' grace, and if he fail to make good the amount in this time, he shall then forfeit one-half of the sixth-part, originally paid cash down, and the whole sale shall be null. The Lands Office shall then put such land, again, up for auction in the usual form. In case the land should not have been mortgaged, but the purchaser have given bills (as in art. 20), these shall be duly recovered, with an extra charge of 1 per cent. per month from the time they fell due until payment.

Art. 25. When any of the lands at present rented out, come to be sold to other than the tenant, the latter failing to apply for same within the term specified, the tenant shall be entitled to demand of the buyer compensation for all improvements, at a fair estimate.

General Regulations.

Art. 26. In each partido where there is at present no town, four square leagues shall be reserved, the Executive selecting same when and where it may judge expedient.

Art. 27. The product of lands sold shall be delivered to the Bank board of Directors, according as recovered; as also the Pagaré's and Bills (in Art. 19) for the Bank to recover same.

Art. 28. The law of Nov. 14, 1864, is hereby repealed and made void.

TWO DAYS LATER FROM THE STATES

RECONSTRUCTION BILL

GREAT BANK ROBBERY

CHOLERA ON THE DECLINE

TERRIFIC FIRE AT DETROIT.

New York, April 30.

Through the kindness of Mr. E. A. Hopkins, who arrived per Humboldt from Rio, we are in possession of the 'New-York Herald' of April 30th, being two days later than the mails received per English packet.

It is understood that the Joint Committee on Reconstruction will report in both Houses of Congress to-day the plan which they have at length agreed upon for the rehabilitation of the lately rebellious States. This plan, provides:—

Section 1.—That no State shall make or enforce any law abridging the equal privileges or immunities of citizens of the United States, or denying to any person equal protection under the laws.

Sec. 2.—That the whole population shall be counted for representation in Congress, excluding Indians not taxed; but that whenever any State shall deny to any portion of its people the right of suffrage, except for participation in the rebellion, or other crime, the popular basis of representation shall be proportionately reduced.

Sec. 3.—That until July 4, 1870, all persons voluntarily participating in the late insurrection, giving it aid and comfort, shall be excluded from the right to vote for members of Congress, and for electors for President and Vice-President of the United States.

Sec. 4.—Prohibits the payment or recognition by the United States, or any State, of any debts incurred in the rebellion, and repudiates all claims for compensation for loss of slave labor.

Sec. 5.—Gives to Congress the power to enforce these provisions.

This is the plan of the Reconstruction Committee, after a incubation of five months.

It was reported in Washington yesterday that the Spanish Minister, under instructions from his government, has requested the mediation of the United States in the Chilian difficulties, and proposed to refer the Spanish claims to our government for arbitration.

In addition to the late diplomatic correspondence relating to Mexico Mr. Bigelow has written to Secretary Seward that he had a personal interview with M. Drouyn de Lhuys, in which the latter stated that he would be very glad if it were practicable to open communication with Juarez on the proposed evacuation, and make arrangements with him and his party relative to the stay of Maximilian among them.

A captain in the late Fenian expedition to Eastport says that the only hope now is in the Roberts-Sweeny organization. The steamer with the retiring Fenians on board arrived at Portland yesterday morning. A mutiny occurred among the most discontented of them and a threatening demonstration was made against their officers; but, a few ringleaders being put ashore, quiet prevailed.

Our European files by the Nova Scotian reached this city from Portland Me., yesterday morning, and the steamship Arago, from Havre by way of Falmouth, Eng., on the 12th of April arrived in the evening. From both sources we are enabled to publish some interesting details of our telegraphic news-reports to the day of sailing of both vessels.

A Washington despatch states that permission has been granted Mrs. Jeff Davis to see her husband.

The depots of the Detroit and Milmaukee and of the Michigan Southern Railroads, and the ferry-boat Windsor, were destroyed by fire in Detroit on Thursday night, involving a loss of over two hundred and twenty thousand dollars. A lamentable loss of life occurred on the boat, twenty-eight persons being missing, who are supposed to have been burned or drowned. The fire was occasioned by the ignition of a barrel of kerosene oil.

Six burglars entered the residence of the cashier of the Harrison National Bank of Cadiz, Ohio, bucked and gagged that gentleman, and compelled his wife to deliver up the keys of the bank and safe, and robbed the safe of three hundred thousand dollars in United States bonds and about fifty thousand dollars in deposits.

The Secretary of the Navy has issued orders to Rear Admiral C. H. Bell, commandant of the Brooklyn Navy Yard, to send the old sloops-of-war Saratoga and Portsmouth to the lower bay, and give them in charge of the Health Board to receive cholera patients. These vessels, until recently, have been used as ordnance vessels.

A communication published this morning from Thos. J. Kelly, Adjutant General of the Irish republican army, states positively that it was the intention of Head Centre Stephens to leave Havre for this port on the 28th inst. in the steamer Napoleon III., which will probably arrive about the 9th proximo.

Files of Jamaica papers, dated to the 18th April. Governor Eyre sustained some injuries by a fall from his horse at Spanish Town. Mrs. G. W. Gordon, widow of the convicted leader of the late revolt, was about to leave Jamaica for England. The chiefs of the Anti-Slavery Society of England were to receive her at Southampton.

Among the passengers to sail to-day by the steamer North America 'en route' to Pernambuco, is Mr. Herrmann, the famous prestidijitateur, who goes to perform a seven months' season in Brazil and River Plate.

Mr. Ketcham, (rep.) of N. Y., presented a petition of citizens of Red Hook, Dutchess county, N. Y., asking for increased protection for American wool. It was referred to the Committee of Ways and Means.

Portland, Me., April 27, 1866.

About two hundred Fenians arrived on the boat this morning from East port. Some of them landed here. General Roberts is reported on board.

Considerable excitement has been caused by the report that the captain got a number of the party ashore here and attempted to shove off and leave them, when those on board threatened to seize the steamer unless the vessel put back and took them on board. The steamer beat about the bay for some time, but finally the captain took those on shore aboard and proceeded on the journey.

Very absurd rumors are afloat about an attempt to capture the steamer, but the above are the facts as near as I can learn.

EDITOR'S TABLE.

To-morrow Capt. Grant Watson, of the British Legation, leaves for Montevideo, en route for the Welsh Colony at the Chupat; letters or papers for the Colony will be received at this office up to 4 o'clock p.m. this day, at which hour we close the Chupat mail. Vice Admiral Elliott and Mr. Ford, our British Chargé d'Affaires, have, in consequence of letters received from the colonists by the Governor of the Falkland Islands, determined to send Capt. Watson down in the 'Triton' to personally inspect the Colony, examine the colonists as to the charges preferred, and report to Mr. Ford thereon. An Argentine Commissioner will accompany Capt. Watson. We cannot too highly praise the activity of Mr. Ford in all matters which affect British interests; he sent Capt. Watson to Rosario to see that the murderer of Marshall be punished, and he himself has just returned from a trip to the Uruguay, where he has been busy inspecting the Morgan and Liebig beef-curing establishment, in order to make his report to the Foreign office. He has now taken the Welsh Colony in hand, and we feel certain that at last some satisfactory information respecting this colony will be obtained.

Yesterday the Narcissus left for Rio with Vice Admiral the Hon. Mr. Elliot and family. We regret sincerely the departure of Admiral Elliot, who during his stay amongst us won golden opinions amongst all his countrymen, and in bidding him farewell we express the wish of the whole British public for his happiness and future prosperity.

The new Admiral has not yet arrived, but we understand that Admiral Ramsay has been named to the command.

Dr. Avellaneda's new land law took all town by surprize yesterday: we publish it in full to-day. The bill merits our most unlimited support, and reflects the greatest credit on our new Provincial Government. A careful study of the law in all its bearings will at once convince every one that it is drawn up with the object of protecting the poor man. If the Government succeeds in passing it, we have no hesitation in saying that it will prove an inestimable boon for the camp. Our 'penchant' for hunting out pedigrees is admitted: this new land-law is such a first-rate move that we are free to believe now what we long entertained grave suspicions about, namely, that the new Governor is a Scotchman by descent, his ancestor's name having been Alison, one of the first families in Scotland. If our conjectures are correct, the new Governor is a distant relative of Sir Archibald Alison, the renowned historian.

To-night our German friends hold a feast of reason at the famed Teutonia Club. Our Teutonic friends have very kindly invited us, but we greatly fear that owing to the profundity of the mud on the Barraca road the thing is simply impossible, nevertheless, we highly appreciate the very great honor paid us by our German friends. It is an anniversary night, and flags will be presented. We hope, if unable to attend, some kind friend will send us a full report of the proceedings.

Alberdi's last pamphlet, published in Paris, respecting the triple alliance, has caused great noise here. The pamphlet contains a map of the territory which the allies propose cutting off from Paraguay.

Dr. Octaviano, who left per Porteña for Montevideo, proposes inspecting the Brazilian hospitals in that city, and then at once proceeding to Corrientes. He has £100,000 in gold on board.

The new name put on the Porteña is Eponina, which we understand is the name of Dr. Octaviano's wife.

Some despatches for D. A. Lanuz and also for the 'Standard' office per Esmeralda have been lost. We implore of our friends, if anyone has picked up Sinbad's letter to send it to us at once, as yesterday owing to the non-arrival of steamers we were rather hard up for news.

Two more American officers have arrived in the Brazils from the States, to inspect the country about the Amazons and arrange for a wholesale emigration.

The Minister of War, accompanied by some officers, paid another visit to the new Prussian steel cannons which have recently arrived. We anticipate they will be at once sent to headquarters.

Three Sisters of Charity are now in attendance on the wounded at the Retiro hospital; the services which the Sisters are rendering the allied wounded at all their hospitals can only be appreciated by those who attend these abodes of suffering humanity.

Great complaints are made about Doctors having returned from Corrientes so soon; it seems the only Dr. that has remained in Corrientes is Dr. Peralta. At the way things are going on, it will soon be necessary to press the Doctors, for if we are to believe the letters we get from Corrientes that city is in a most lamentable state.

Our latest advices from Tandil are to the effect that the Comisario has arrived with a boxof paper money and is paying the troops, which has caused a gleam of sunshine in those deserted camps.

Respecting the French packet, we hear that owing to the great crowd which generally gets on board on the day of her departure, the new Captain has been induced to establish the new rule "none but passengers on board"; as to the cold water cocktails, we hear that this is caused in consequence of several friends forgetting to pay in the hurry of the steamer leaving.

The instructions of Lopez to his soldiers and his countrymen, published at his camp printing-office in Humaita, dated 29th September, 1865, were yesterday brought to our office: it is carefully and ably drawn up, and calculated to fire the whole Paraguayan population against the allies. The document is too long for publication in our columns, although the Montevidean papers have published it. We only mention the matter to show the care which Lopez takes to omit nothing on his part to ensure success. He gives his soldiers the whole history of the war, according to his version.

The great estancia auction, by the renowned Mr. Billinghurst, terminated rather favorably. As we promised our readers full particulars, we now give the result as favored us by the auctioneer.

12 flocks of fine mestiza sheep, numbering about 20,000 animals.

1st flock, very splendid condition, $50 al corte.

2nd flock, good strong mestizas, $35 al corte.

3rd flock, good strong mestizas, $33.4 al corte.

4th flock, strong mestizas,		$26	al corte.
5th do.	mixed,	24	do.
6th do.	do.	21	do.
7th do.	do.	18	do.
8th do.	do.	22	do.
9th do.	better class,	23	do.
10th do.	mixed,	20	do.
And two last, inferior,		16	do.

3500 head horned cattle, $65, $66, $71, and $76 per.

Troop of mares, $63 per.

Tropilla horses, $210 per.

Capones, $25 and $26.4 each, poor condition.

All the above sold al 'corte,' Principal purchasers—Mr. Terence Moore, wholesale grocer, Buenos Ayres; Ledesma Hermanos, B. A.; Tomas Cullen, B. A.; Marciano Cano, B. A.; Sr. Ascuenaga, B. A.; Luis Balcarce, Alejandro Balcarce & Ranson, Baro.

We understand that the new American steamer Oriental will be commanded by the captain that brought her out. The captain of the Porteña, Captain

Sciuriano, has taken command of the Julia. We trust that Flag-captain Von Slyck will be at his old post in the new steamer. Never before, in the history of the River Plate, were there so many steamers in these waters as at present. When the war terminates, and the Brazilians go back to their own country, what shall we do with all the steamers?

The new American Minister, Major-General Asboth is expected here next mail. He comes by way of England, and accompanied by General Webb.

There is a lull now in tramway literature, and we see no more articles touching these most useful conveyances. Meanwhile the state of the streets at present baffles all description: the Barracas hill and Calle Larga are in a fearful condition, and the only way to get to town is to make for the Tres Esquinas and take the train there. The Boca Railway is doing a splendid business, and will, we have little doubt, be the first railway in Buenos Ayres to pay 7 per cent. on its capital.

The Central Argentine Railway is pushing ahead at giant speed. The earthworks are now away past Frayle Muerto. The road will be formally opened to the public to Frayle Muerto on the 1st of September.

Latest advices from Parana report the arrival of special despatches from President Mitre for General Urquiza. Chasques were at once despatched to San José.

We hear great complaints about the scarcity of peons at the Custom-House. We suppose half of the 'changadores' must have gone to the war, for even in the streets they are less numerous.

The recruiting sergeants are again opening their recruiting offices in town, and young men who feel like going to Paraguay can get $5,000 R. M. D., on listing till the war terminates—it may be a couple of months and it may be much longer. Probably one of the greatest failures ever witnessed has been the vaunted Brigade, which burst up something like the Fenian expedition to take Halifax.

The new Liverpool steamer La Plata, Brownrigg, may be expected out about the latter end of this month.

We have received per Catherina, from New York, another splendid invoice of types, not that we at present require it, but as we shortly intend to publish our daily paper large size, we require an immense stock of type, to hold over for our weekly and packet papers. The 'Standard' printing office may now be regarded as second to none in Buenos Ayres.

On Thursday a number of camp friends held a meeting at their hotel, and it was unanimously resolved that in consequence of the great victory of the 'Standard' in annihilating the proposed tax on sheep and cattle, the most influential 'Standard' readers in each partido should canvass for subscribers to support the only organ the farmers and estancieros have in Buenos Ayres—'The Standard.' One of the richest foreign estancieros from the Capilla del Señor called at our office to apprise us of this, and stated that he and his friends guarantee that every farmer in the country that can read English will put down his name now as a subscriber. It is really one of the grandest victories we ever achieved. One of the members of the Provincial Legislature called on us to compliment us on our article on this scandalous tax published in Tuesday morning's paper; he fully coincides with us that the most vital industry in the country is the sheepfarming, and that it would be nothing short of the worst error to put a farthing tax on the struggling farmers. Many of the principal native estancieros express the greatest regret that they cannot read English, in order to subscribe for the paper that stands up for their interests.

The rain on Thursday night was heavier and more consecutive than last month; the lightning was truly awful. Last month's storm has been surpassed by this. We hope it has done no injury outside; as yet we have no advices.

At the approaching musical entertainment of Messrs. Marshall & Philips at the Coliseum, we understand our friend Phillips has composed a new and pathetic solo called the 'Violintrumpetharmonicanwhistlecombrous,' with the 'Mocking Bird' chorus. Phillips is the George Christy of Buenos Ayres. The Coliseum is altogether too small, he should have taken the Victoria or Colon.

LATEST FROM PAYSANDU.

THE BRITISH MINISTER AND MORGAN BEEF.

We have received the first numbers of 'El Comercio' a paper started under flattering auspices by a friend of ours, and very well edited. The following is an extract from the programme:—

"We believe that the most useful banner we can adopt is—the progress of Paysandú: in this everyone can and ought to co-operate, and the result will be, order, respect for the laws, and individual liberty."

During last year 195 patents for wheeled-vehicles were issued by the Policia, 106 to natives and 89 to foreigners.

The Hon. Mr. Ford, H.B.M. Chargé d'affaires, is making a tour of the Department, and (says the 'Comercio') visited Mr. Williams' saladero by special order from the British Government, to report upon the Morgan system of curing beef and mutton: he, afterwards proceeded to Fray Bentos to inspect Messrs. Giebert's factory of 'Extractum Carnis Liebig.' This shews the interest felt by the English Cabinet in seeking a new beef-market, and it will be good news for the estancieros.

Sig. Sinistri's new Company of mail-coaches to Tacuarembó is now fully established and all the shares allotted.

A new Junta has been installed at Fray Bentos, comprising our friends Messrs. Hammett, Dungey, Banoviche and others.

Rumors have been current for some time, about Salto and Paysandú, of a Blanco invasion near Guabiyú, but they are unfounded.

The arrivals of vessels in May were 55; sailings 60.

The Commercial and Italian banks are amalgamated, under the experienced management of D. Ernesto Carreras.

A robbery has taken place at the Junta: another at the residence of the Capt of Port.

The 'Comercio' pays the 'Standard' travelling-editor a compliment for the remarks about Paysandú in "A vacation trip in the Uruguay."

LATEST FROM MERCEDES.

FRIGHTFUL STATE OF THE PLACE.

MUNICIPALITY ASLEEP.

To the Editors of the 'Standard.'

Gentlemen,

I have just returned from Mercedes, which is in a dreadful state with mud; in fact, I could not convey to you an idea of the awful state the streets are in. It should have been called 'Danbyhole,' instead of 'Ciudad de Mercedes:' it presents a most scandalous and negligent appearance. The Municipality receive above $200,000 annual income from taxation, 'guias,' 'boletos,' &c., and where does this great quantity all go to? Echo answers, where? Perhaps it is put in the sinking funds, where neither interest nor principal is seen, or to that hot region whence there is no return. The mud and 'pantanos' in the streets are as dangerous for a man and horse as are the Paraguayan quagmires to the allied army. How long they may remain in their present state is hard to say. The sun is the only road-maker in Mercedes. The Juez and Municipality are both very indifferent in the matter; they seem to care neither for the respect of the town nor the health of its inhabitants. The town is really shamelessly dirty: the houses bespattered with mud, and crossing the streets, from footpath to footpath, is ankle-deep with dirt. This is a bad state of things, it speaks poorly for the progress and advancement of the place, and proves beyond doubt that the Municipality is composed of a number of lazy, useless members. This is more evident from the fact that there is plenty of materials in the neighbourhood to mend the streets with. There is an abundance of gravel and 'tusca' in the river which runs hard by the town. If the Juez and Municipality were made cognizant of their faults through the press, and public opinion brought to bear on them, some good results might be expected. The town is divided by factions, and party spirit runs high; antipathy and ill-feeling prevail to a considerable extent.

I remain, Gentlemen,
Yours respectfully,
REFORMER.

WANTED, A DOG TAX.

Magdalena, June 8, 1866.

To the Editors of the 'Standard,'

Gentlemen,

I noticed in your valuable paper today one of the greatest absurdities ever thought of, viz. 'The proposed tax on sheep.' I agree with you, Messrs. Editors, in every word that you mention against it; we have enough to do to get a mouthful of victuals from our sheep without paying a tax, and if the Government carry it out, it will be the ruin of many poor sheepfarmers like myself, and not only of sheepfarmers, but of the country also, because it will stop immigration. But as a substitute for tax on sheep I would suggest a tax on dogs. The country is swarming with them; they ramble about during the night and sometimes attack your flock of sheep, and when you get up in the morning you find from 200 to 300 of the sheep lying dead, and even sometimes oneself is attacked. The other day in going to a store I was pulled off my horse, my coat and trousers being completely torn off me, and had it not been for the timely assistance of the master I should have been torn to pieces myself. Now, if there was a tax on these animals one would be able to travel over the camps without the least fear. I hope you will call attention to this, as I think it will be a far wiser plan to tax the dogs than the absurdity of taxing the sheep.

Our camps are in the very best condition. We have grass a foot high. Our horses and sheep are coming round again after the awful rain. I must now close, hoping you will excuse my intruding on your space.

I remain,
Your humble servant,
A POOR IRISHMAN.

SPAIN AND CHILE.

THE PROPOSED MEDIATION OF THE U. STATES.

It is reported in Washington, upon good authority, that Spain is willing to accept the mediation of the United States in her quarrel with Chile, and, submitting her claims against the South American power to our arbitration, will agree to be bound by the decision made. It is possible that this may only be one of the many diplomatic rumors always current in the capital; but if it shall prove to be true we may look forward to an early settlement of the trouble, for it is hardly possible that Cuba and her allies will refuse the proposition.

Spain is usually alluded to as the least enlightened and progressive of Christian nations, as the one holding the most tenaciously and stubbornly to all the old divine-right prejudices of Europe; yet we see that she is the first of European nations to boldly acknowledge the great fact of the time in relation to this hemisphere, namely, that we are the arbiter of national destinies here—the one power whose decision on American topics should be accepted as law. We might have expected this recognition from England, who, knowing better than any other the vitality that an immense commerce gives to a nation, should have been the first to perceive our great power. We might have expected it from France, our ancient ally, and the power that makes most pretence to move with the spirit of the age. But hitherto these powers have mostly exercised their ingenuity in the effort to argue around the great fact of our predominance in the Western World, and when not able to argue round it they have wilfully shut their eyes to it. It is this latter course that led France to tumble into such an uncomfortable piece of business as the Mexican expedition. It is remarkable that old fogy Spain should be more progressive than her enlightened neighbors in the one fact in which progressiveness is valuable.

The present willingness of Spain to submit her pretensions in South America to reasonable discussion indicates a desire to free her hands of trouble on this side of the Atlantic. It is another straw telling us how universally all the European breezes tend toward war. All the powers wish to have as clean a record as possible for the coming summer. Though from what is seen now, the war, if it comes at all, will be far away from Spain and Spanish interests, yet there is no knowing how it may spread or who may be involved in it. Experience has amply shown that exact limits cannot be set to any great war, and Spain, acting wisely on that experience, prepares to put her house in order.

ON 'CHANGE.

June 15, 1866.

Paper price of ounces,	$412½
Do. sovereigns,	126½
First price of patacons,	25 90
Second	25 95
Last	25 80

Cash sales 54,948.

Specie opened very firm at 25.90, and with an apparent upward tendency, but towards noon prices slackened, and the market closed weak at 25·80. In the liquidation-room the demand for gold was felt, and prices ruled firm at 25.80. The 'bulls' were busy to-day with rumors as to the state of things in Montevideo, but as no steamer arrived we have nothing new from that quarter. Most people believe that whatever run there may have been there on the banks by this time it has subsided. We understand that the steamer which left yesterday for the Uruguay, took up gold from here to the branch banks along the river.

Respecting the war there are no advices, but well-informed brokers look anxiously for the arrival of a steamer; we believe the Pavon. Peace is talked of on 'Change, but people seem to despair of the possibility of any terms being come to until the allies first gain a decisive victory.

The sudden fall in Bonds was the chief topic on 'Change. These securities have dropped down within a week from 43 to 38½, a fall so serious and unlooked for that people naturally inquire the cause. It seems that the Bonds sold to-day were thrown on the market by a party who held them as collateral security, and owing to the great uncertainty of political affairs, and the fear that Congress will not pass article 28, several holders are anxious to realize. The real value of these securities depends on the possibility of a prompt termination of the war. The fact that only a very small portion of the Riestra loan has been done, and nothing further can be expected, should naturally improve the value here of the home debt, but, as is usual in Buenos Ayres, the contrary is the case, and now that no more foreign loans can be thought of, the home debt declines. Could we but count on peace being arranged, say within two months, these National Bonds are cheap at anything under 45. It is idle, however, to conceal the fact, there is a strong peace party springing up, and either the war must be pushed with greater vigor or peace concluded. This is the opinion of seven-eighths of the people on the Bolsa, and we believe we might add the population of Buenos Ayres.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1868.

P.p. Maua and Co.

WILLIAM LESLIE

CONDITIONS.

Second—The interest allowed is six per cent. (6 p %) per annum, which is liquidated every six months.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Denholm and Dunlop.,

South American Land and Emigration Agents.

HEAD OFFICES:

London, East India Avenue, Leadenhall Street.
Edinburgh, Cockburn Street.

Messrs. DENHOLM & DUNLOP beg to announce that they have opened the above Agency for the disposal of Landed Property in South America. The most satisfactory guarantee can be given to Owners and Purchasers of Land desirous of availing of the Agency, which has been established to supply a want long felt in enabling the Proprietors of Landed Estate throughout South America to place their property in the English Market, and in facilitating and promoting agricultural emigration to that continent.

There is frequently much difficulty experienced in disposing of Land in the Native Markets; but in the United Kingdom, where a demand for such investments is always active, they feel confident their Agency will be of the greatest service in introducing eligible lots and tracts to Purchasers, and in effecting sales on advantageous terms for all parties. The Proprietors of Land in South America are therefore respectfully invited to place their business in the hands of the above, who have the honor of acting for many gentlemen of the highest position and respectability. The terms of sale are fixed in strict accordance with the wishes of the Owner, who should forward the requisite powers, accompanied by full and precise particulars and instructions.

They will also be glad to act as Agents for the disposal of the Public Lands of the Governments of the Republics, States, and Provinces of South America.

As Emigration Agents, Messrs. DENHOLM & DUNLOP will be happy to receive Commissions from Individuals or Companies interested in promoting the influx of foreign population into the countries of South America. Overtures on this subject will obtain prompt attention.

In view of the scarcity of labour, particularly in Brazil, the Argentine Republic and Uruguay (Monte Video), arrangements have been made to enter into contracts for service in various capacities with eligible persons to proceed to South America, if assured of the certainty of employment for a specified period of years. Especial care will be taken in the selection of persons of ascertained good character, sobriety, and diligence Estancieros, Sh epfarmers, &c., will therefore do well to apply to this Agency. Passage-money, and other necessary expenses will be arranged in conformity with the desire of correspondents.

Orders will be received for the purchase, and forwarding to all parts of South America, of Agricultural Implements and Machinery of the most improved and suitable character for farming operations, at Wholesale prices, and without any extra charge for Commission. Messrs. D. & D. are also in a position to send out all kinds of Seeds, Roots, Grasses, &c., of first-class quality, on reasonable terms, and will furnish catalogues on application.

It is intended to publish an extensively circulate in this country and the Continent a Fortnightly Register of all Properties placed in the hands of Messrs. D. & D. for sale.
